

Transformation

HEALTHIT™ 360

Proprietary Framework for IT Health

Go beyond identifying gaps. Connect technology findings to your business and operational risk. Prioritize investments, strengthen cyber resilience, and accelerate business performance with confidence.

Health IT 360 Value

The Anatomy IT advisor-led, 360-degree view connected our technical findings to meaningful business outcomes. By eliminating months of data collection and analysis, Health IT 360 empowers our leadership to make smarter, faster decisions that improve cyber readiness, reduce risk, and support strategic growth.

Gramercy Surgery Center

Standards-Driven Excellence

Incorporating the best of ISO 27001, ISO 27002, SOC 2 Type 1, SOC 2 Type 2, GDPR, ITIL, NIST and HIPAA guidelines. Designed with decades of our healthcare expertise, our framework adheres to established industry leading protocols to deliver a custom comprehensive solution.

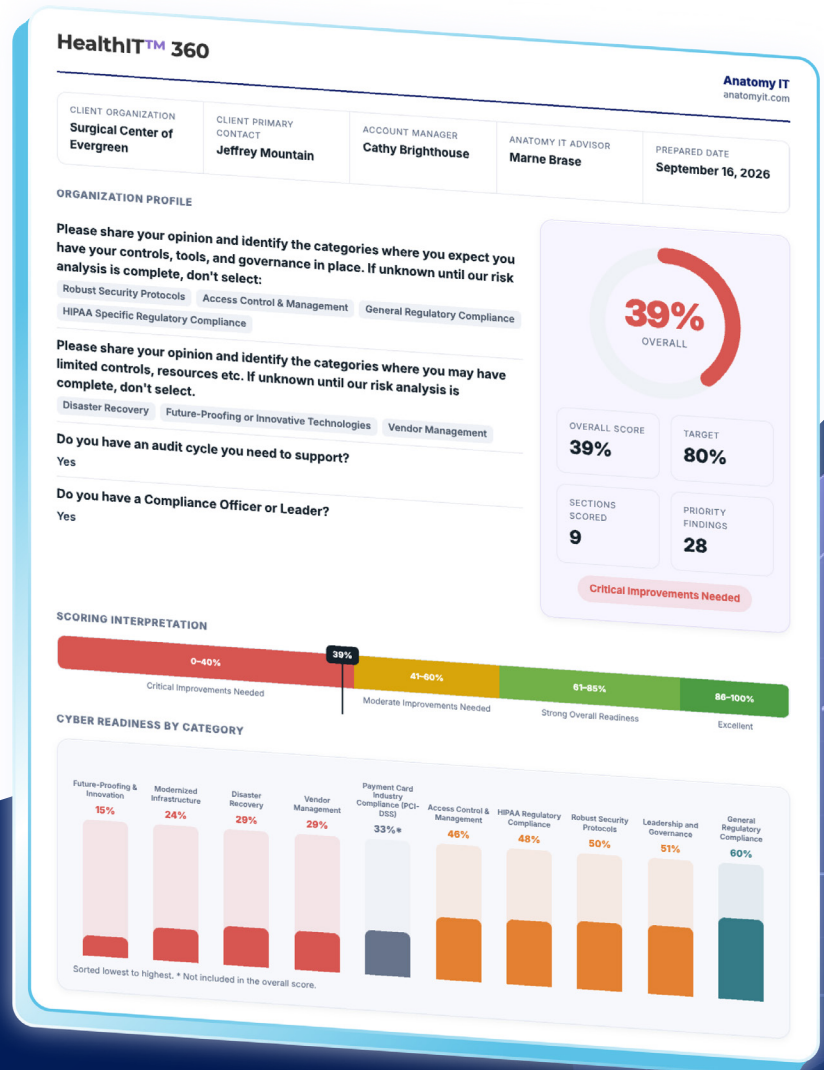

Advisor-Led Experience

Our healthcare leader works with you directly to capture data, processes, and identify current and future business state.

Actionable Strategic Plan

The Anatomy IT leadership team evaluates the results and presents to your leadership team along with recommendations and action items to finalize milestones together.

Health IT 360 is the next level of cyber readiness, strategic planning, and digital transformation.
